

# Genexis UK Product Support

The Product Security and Telecommunications Infrastructure (PSTI) legislation came into effect on 29 April 2024 in the UK. Part of this legislation is to specify the product support period. Genexis offers product support to customers from the market introduction date of the product until the End of Support Life date. Within this period, your device will receive security fixes when needed.

Search for the product name of your device in the list below for its specific End of Support Life date. The product name can be found on the label of your device. The End of Support Life dates stated below only apply to products sold in the UK.

Product name	Market introduction date	End of Support Life
Aura E650	January-2024	December-2028
FiberBox G2110	May-2024	May-2030
